MEP & LEED Certification

Project Time Frame

2009 - On-Going

**Narrative Description**

The Al Qudra Headquarters Project consists of an office building on an approximately 800m² land parcel (Abu Dhabi East 48, Plot No. C-35). With a total built-up area of about 12,500m², the building includes 2 basements, a ground floor, a mezzanine, 6 floors and a roof. The building is designed to achieve Silver LEED® Certification.

DAHNT was commissioned with providing comprehensive architecture and engineering services including detailed design (Architectural / Structural / MEP / Sustainability) and construction supervision.
